Water Conditioner

Salt-Less Water Purification.

This is a salt free purification system made with state-of-the-art PF 1025 media design by us for our customers exclusively! This proprietary media reduces chemicals, heavy metals, pharmaceuticals, odors, and stale taste and much more! This system works great at reducing build up on faucets, fixtures, mirrors, and glass. It helps reduce water spots on vertical surfaces. It leaves the calcium and magnesium in the water as important minerals for your health! This system is low maintenance and uses no power, no wasted water, and no salt!

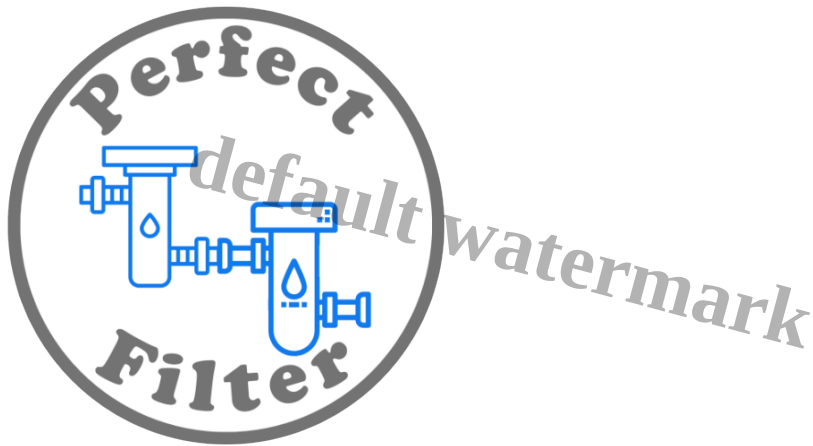

Benefits of Our Top of the Line Water Conditioner:

Stop bathing in chemicals! Say goodbye to harsh toxins in your water supply. Overall, a water conditioner ensures that water is of higher quality and more suitable for a variety of uses.

- No Electrical Components.
- No Salt.
- No Chlorine.
- No Ammonia.
- No Chloramines.
